WHAT YOU'LL NEED
HDMI   VGA
Cables not included.

F.A.Q
Frequently asked questions

No image?
Confirm HDMI source is active and display is on VGA input.

Audio output?
Use device's 3.5 mm/other audio out (VGA = video only).

Bidirectional?
No — use only HDMI → VGA

Resolution issue?
Set source to 1080p/60 or a lower VGA-supported mode.
