

## USB 2.0 A-MALE TO B-MALE (PRINTER) PREMIUM CABLE, OD 5.0 MM

Reliable USB 2.0 connection for printers, scanners & peripherals.

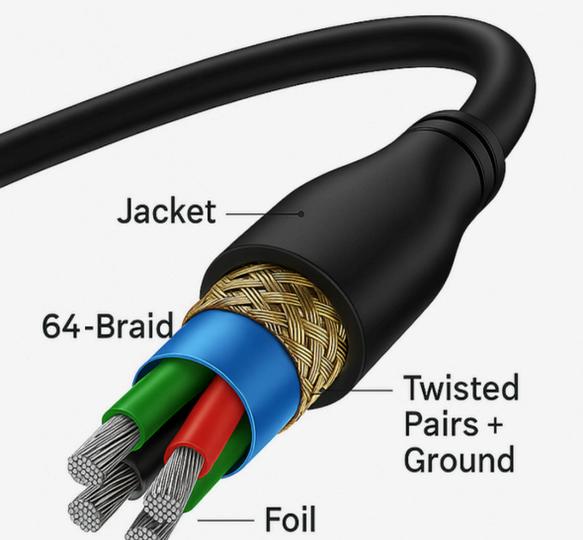

- OFC
- USB 2.0
- Env.PVC
- 64-Braid+Foil+GND 5.0

Molded strain-relief

### Clean signal, strong shielding, durable jacket

- OFC cores minimize loss for stable printing/scanning.
- 64-braid + foil + ground delivers robust EMI/RFI suppression.
- Environmental PVC jacket: flexible, wear-resistant, easy to route.
- OD 5.0 mm: solid feel, tangle-resistant, better strain relief.
- Plug & Play with USB 2.0/1.1 devices; backward compatible.

## F.A.Q

Frequently asked questions

### Will this work with USB-C?

Use a USB-C to USB-A adapter on the host, then this cable to the device.

### Is it directional?

Use A (host) → B (device) orientation.

### Power for devices?

Printers/scanners are usually self-powered; the cable carries USB 5 V lines for enumeration & low-power devices.

### Is it longer than 5 m?

Use an active USB 2.0 repeater solution.
