

VGA (HD15) MALE-TO-MALE CABLE 1080P@60HZ, 3+6 WIRE, OD 6.5 MM

- **Resolution:** up to 1920x1080 @ 60 Hz
- **Structure:** 3+6 wire VGA (3 coax RGB + 6 signal)
- **Build:** OFC conductors
- **Gold-plated connector pins**
- **Diameter:** OD 6.5 mm
- **Ferrite cores:** <5 m single • >5 m double (EMI/RFI suppression)
- **Lengths:** 1.5 m – 10 m

DESIGNED FOR CLEAN ANALOG VIDEO AND ROBUST INSTALLS

- 1080p@60 Hz analog clarity for office, classroom, signage.
- 3+6 wire design for accurate RGB and sync transmission.
- OFC copper reduces attenuation and preserves color.
- Ferrite cores cut high-frequency noise (length-based configuration).
- Gold-plated pins for corrosion resistance & stable contact.
- Durable OD 6.5 mm jacket for daily plugging/unplugging.

UNIVERSAL COMPATIBILITY

LAPTOP

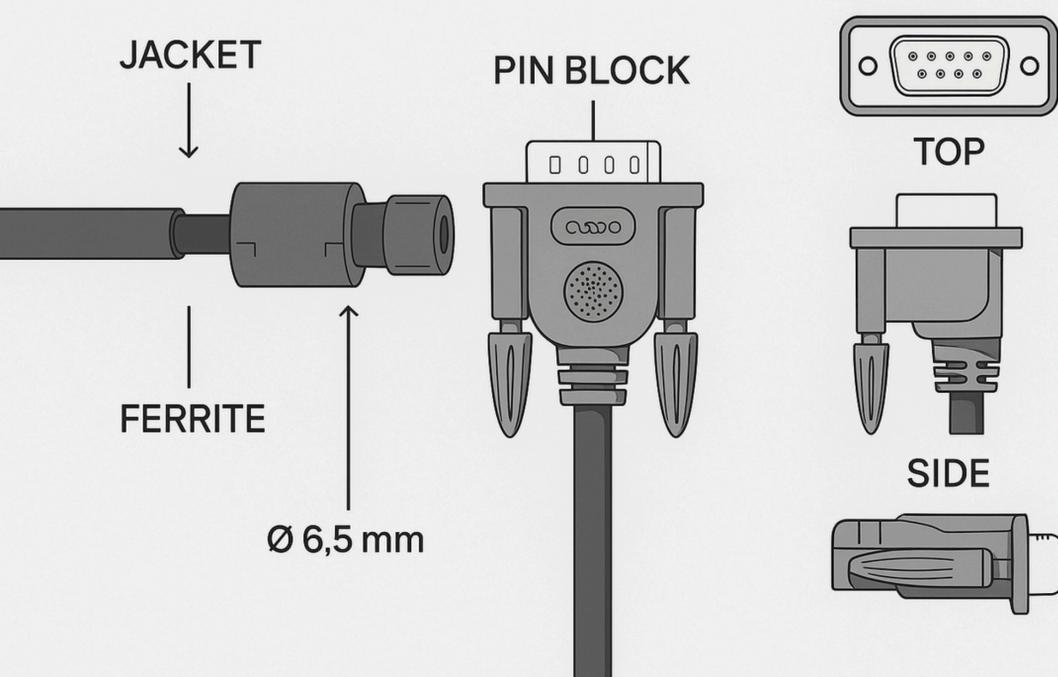

PROJECTOR

F.A.Q

Frequently asked questions

Will it carry audio? No

VGA is video only.

Long runs at 1080p?

We recommend ≤10 m; for longer, reduce resolution/refresh or use boosters.

How tight can I bend it?

Keep a generous bend radius; avoid kinks.
